The basis of this version of The Principles of Natural and Politic Law is Thomas Nugent's 1763 English translation, which became a standard textbook at Cambridge and at many premier American colleges, including Princeton, Harvard, and the University of Pennsylvania. The first scholarly work on Burlamaqui was written by an American, M. Ray Forrest Harvey, who in 1937 argued that Burlamaqui was well known among America's Founding Fathers and that his writings exerted considerable influence ...

Three Principles of Natural Rights. There has been a lot of discussion recently about rights and while I love that people are acknowledging there's such a thing as rights, I'm also disheartened that it's clear people have absolutely no logical concept of what they are. For instance, when people demand people respect for gay rights, or ...

Natural law (Latin: *ius naturale*, *lex naturalis*) is a system of law that purports to be based on values intrinsic to human nature that can be deduced and applied independent of positive law (the enacted laws of a state or society). According to natural law theory, all people have inherent rights, conferred not by act of legislation but by "God, nature, or reason."
