Fit Forms and Free Forms of the Masonry Dome | SpringerLink

In India the style was used originally for wooden construction, but later the technique was adopted for stone structures for decorated load-bearing and purely ornamented non-structural purposes. Engineering. Post and lintel construction is one of four ancient structural methods of building, the others being the corbel, arch-and-vault, and truss.

Post and lintel - Wikipedia

Structural system, in building construction, the particular method of assembling and constructing structural elements of a building so that they support and transmit applied loads safely to the ground without exceeding the allowable stresses in the members.Basic types of systems include bearing-wall, post-and-lintel, frame, membrane, and suspension.
