Early Humans - HISTORY

Human history (or the history of humanity), also known as the history of the world, is the description of humanity's past. It is informed by archaeology, anthropology, genetics, linguistics, and other disciplines; and, for periods since the invention of writing, by recorded history and by secondary sources and studies.

Human history - Wikipedia

The human story is, of course, part of the cosmic story, as Brian Swimme so beautifully describes. Our bodies contain ancient hydrogen formed in the first moments of the universe. Our carbon, oxygen, nitrogen, and all the other heavy elements in our bodies, are the gift of supernova stars.
