TPMS Services (Tire Pressure Monitoring System) at Pep Boys. Your tire pressure monitoring system acts as a safeguard, alerting you to waning tire pressure and helping to avoid placing you and your passengers in an unsafe situation. Pep Boys offers TPMS services designed to keep your TPMS working optimally.

### **TPMS Services | Pep Boys**

The tire pressure monitoring system (TPMS) includes sensors in the tires to measure tire pressure. This information is relayed to the engine's computer or body control unit and displays warnings when tire pressure is too low. They are powered by a small battery and are built into the wheel's valve stem or attached to the inside of the wheel.

### **TPMS Service Kit | O'Reilly Auto Parts**

Customers rely on the TPMS sensors to indicate when a tire needs attention. If the actions of the service provider made a functioning TPMS inoperable, the vehicle cannot be returned to service until the problem is solved.

### **Dealing With the Legalities of TPMS: 'Ignorance of the Law ...**

A tire pressure monitoring system (TPMS) uses sensors in your tires to tell if one or more of your tires are under-inflated. A low tire pressure light or TPMS light on your dash indicates that your air pressure is more than 25% below the manufacturer's recommended inflation.

### **VDO REDI-Sensor™ multi-application TPMS sensor**

Your tire pressure monitoring system (TPMS) sensor helps alert you to problems with your tires. On some vehicles, a single light tells you if any of your tires are low. In more advanced systems, a display shows the pressure in each tire individually. If you have a low tire pressure alert, check the tire manually before refilling it with air.
