Trust Matters in Health Care (State of Health)

Trust is important for patients and may be used as an indicator and potential 'marker' for how patients evaluate the quality of health care. The review aimed to classify the current evidence base on trust in the patient-provider relationship in order to identify strengths and weaknesses and to point towards areas for future research.

Trust in the health-care provider-patient relationship: a

...

The poll shows that voters trust their province more than the federal government by a two-to-one ratio with their health care. Twenty-nine percent of voters say that they prefer provincial governments over the federal government. Fourteen percent of
